WHILST EARNING A WAGE  
AS AN APPRENTICE AT  
[WEST LEA.](#)

### Case study testimonial

Beth  
*'I'm so pleased that West Lea School encouraged me to complete the Sporting Futures Training TA Apprenticeship last year. It was such a valuable course as I was able to gain experience, learn new skills and the qualification enabled me to start my degree in Learning and Teaching FdA at Middlesex university this year. The course tutors were so friendly and helpful'*

CLOSING DATE: 14<sup>th</sup> May 2021

### Case study testimonial

Dirensu:  
*'A benefit to on-the-job training as an apprentice is being able to take the time to understand something and always having help within reach. Having a support tutor or assigned helper who is happy to help if you have any questions about what you're learning at work, is a great advantage. You'll be working alongside full-time members of staff so you can get a sense of what the job will be like once you finish your training. On the apprenticeship course we were offered the best of both worlds, with your employer and the training provider working together to help you get the skills and experience you need to gain your qualification. As well as coursework, you can also gain a practical and hands on experience of working in the education sector and within a school environment. Being able to gain valuable transferable skills and abilities makes you suitable for a permanent role either in your chosen school or in a different one. Being able to earn while you learn is a great opportunity that I appreciated and would recommend to any suitable candidates.'*
