PART 1 – HEALTH AND SAFETY POLICY STATEMENT

The Board of Governors of West Lea School attach great importance to the health, safety and welfare of all those who form part of the School community, whether they be members of staff, pupils, visitors or contractors. The Board of Governors are committed to reducing accidents, incidents and ill-health and looks for ways to improve continuously.

All staff at West Lea School are aware they have health and safety responsibilities, and all are expected to play an active part in ensuring the highest health and safety standards for School pupils, employees, visitors, customers and contractors are established and maintained. All those engaged to work at the School are expected to comply with the requirements detailed in this Policy.

The Policy highlights the need for all staff to be alert to risks and hazards and to seek to minimize these by planning work carefully and responsibly. The development of a safe mind set amongst those who work and study here is at the heart of the School's commitment to ensure that the highest standards of health and safety are met at all times.

All employees of the School are further expected to be constantly aware of the risks inherent in the management, care and education of children and to take all reasonable steps to identify, minimize and manage those risks. Those who are entrusted with positions of supervision, whether on School property or during trips and activities, should ensure pupils conduct themselves in accordance with all health and safety requirements and encourage them to approach their life at the School responsibly, being alert to risks and hazards.

This Health and Safety Policy is based on the requirements laid down in the Health and Safety at Work Act 1974 (HSAW), regulations made under this Act, Approved Codes of Practice and Guidance.

All who work at the School should make themselves familiar with the content of all School Policies, paying particular attention to their own areas of responsibility and operation.

They are also expected to apply the Policy conscientiously and thoroughly; where the meaning or expectation of any part of this material is unclear to an employee, it is expected that he or she will seek clarification of that material. Should any member of staff identify an area where improvement could be made, they should without delay contact their Line Manager, the Chief Executive or the Health, Safety and Welfare Manager who holds responsibility for the coordination and management of health and safety.
