## **Road Safety Checklist**

	1	-	1 1	<u> </u>	
Date					Comments
1 Hees feetwath annual wintely					Comments
1. Uses footpath appropriately					
a) stays on path b) walks in middle of path				+	
c) avoids pedestrians				+	
				+	
d) stops when path ends				+	
2. Understands dangers of moving vehicles.					
3. Identifies safest place to cross road					
4. Personal safety/security					
a) copes in a crowd					
b) copes with strangers					
c) knows own address/tel no					
d) can use telephone					
e) carries mobile					
f) carries personal identification					
g) can ask for help					
h) knows who to ask for help					
i) looks after own belongings					
j) wears suitable clothing					
k)able to recognise CHiPS locations					
5. Crosses quiet road safely					
a) chooses safe place to cross					
b) stops and waits at kerb					
c) looks and listens for traffic					
d) crosses when clear					
e) walks straight across looking and					
listening

Initials of Trainer					

6. Uses pelican/puffin crossing safely a) Identifies crossing b) stops and waits at kerb c) Identifies red/green man d) understands meaning of red/green man e) presses button and waits f) crosses only when green man shows g) walks straight across looking and listening 7. Uses zebra crossing safely a) Identifies crossing b) stops and waits at kerb c) Looks and listens for traffic d) crosses when traffic stops e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) Identifies traffic island b) stops and waits at kerb c) Looks and listens for traffic d) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) Identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks colose to the edge of the road c) walks in single file Initials of Trainer	Date				Comments
b) stops and waits at kerb c) identifies red/green man d) understands meaning of red/green man e) presses button and waits f) crosses only when green man shows g) walks straight across looking and listening  7. Uses zebra crossing safely a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when road is clear e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when road is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions and more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road b) walks on sighle file	6. Uses pelican/puffin crossing safely				33
c) identifies red/green man d) understands meaning of red/green man e) presses button and waits f) crosses only when green man shows g) walks straight across looking and listening  7. Uses zebra crossing safely a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when traffic stops e) crosses when traffic island b) stops and waits at kerb c) looks and listens for traffic d) dientifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic d) recognises when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road b) walks on single file	a) identifies crossing				
d) understands meaning of red/green man man e) presses button and waits f) crosses only when green man shows g) walks straight across looking and listening g.  7. Uses zebra crossing safely a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when road is clear f) walks straight across looking and listening g.  8. Uses traffic island safely a) identifies traffic island so identifies traffic island so identifies traffic island so identifies traffic island d) crosses and listens for traffic d) crosses when road is clear f) walks straight across looking and listening g.  8. Uses traffic island safely a) identifies traffic island do in the composition of the composition	b) stops and waits at kerb				
man e) presses button and waits f) crosses only when green man shows g) walks straight across looking and listening  7. Uses zebra crossing safely a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when traffic stops e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks close to the edge of the road b) walks close to the edge of the road c) walks in single file	c) identifies red/green man				
e) presses button and waits f) crosses only when green man shows g) walks straight across looking and listening  7. Uses zebra crossing safely a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when traffic stops e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road b) walks close to the edge of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road b) walks on right hand side of the road c) walks in single file	d) understands meaning of red/green				
f) crosses only when green man shows g) walks straight across looking and listening  7. Uses zebra crossing safely a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when traffic stops e) crosses when road is clear f) walks straight across looking and listening listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands and so to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	****				
g) walks straight across looking and listening  7. Uses zebra crossing safely a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when traffic stops e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file

7. Uses zebra crossing safely a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when traffic stops e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	5,				
a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks on right hand side of the road c) walks in single file	listening				
a) identifies crossing b) stops and waits at kerb c) looks and listens for traffic d) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks on right hand side of the road c) walks in single file					
b) stops and waits at kerb c) looks and listens for traffic d) crosses when traffic stops e) crosses when rraffic stops e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file					
c) looks and listens for traffic d) crosses when traffic stops e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at right and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file					
d) crosses when traffic stops e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks lin single file					
e) crosses when road is clear f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	,				
f) walks straight across looking and listening  8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file					
S. Uses traffic island safely	,				
8. Uses traffic island safely a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	,				
a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	insterning				
a) identifies traffic island b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	8. Uses traffic island safely				
b) stops and waits at kerb c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file					
c) looks and listens for traffic d) recognises when island is crowded e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file					
e) crosses to island when no traffic f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file					
f) stops on island g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	d) recognises when island is crowded				
g) looks and listens for traffic h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	e) crosses to island when no traffic				
h) crosses when no traffic, looking and listening  9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	f) stops on island				
9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	g) looks and listens for traffic				
9. Uses subways and footbridges safely  10. Understands extra difficulties at night and in poor weather conditions a) more difficult for driver to see them b) chooses well-lit crossing c) understands dangers of approaching lights d) understands not to cross if lights approach  11. Can use road without footpath safely a) walks on right hand side of the road b) walks close to the edge of the road c) walks in single file	h) crosses when no traffic, looking and

## **Contingency Planning Checklist**

Knows what do in the following							
situations:							
Get on the wrong bus							
Forgotten/missed stop							
Bus is late or breaks down							
Gets lost							
Feels unwell							
Has an accident							
Forgets/loses bus pass							
Knows how to use mobile phone							
Knows who/how to call for help if							
needed							
Behaviour/Personal Safety (tick as							
appropriate)							
Deals with strangers appropriately							
Interacts with the public appropriately							
Can take care of their own belongings							
Understands when not to give out							
personal information							
Awareness of dangers/personal safety							
Able to recognise numbers							
Able to tell time or develop strategies to							
get to destination on time.							
Specify next steps and areas for development if needed:  Please sign below if you agree that the learner is competent enough to travel safely by themselves.  Travel Trainer Signature  Date
